

Student Council Representatives (Key Messages)

Disansa Ranaweera (grade 4, OCV South West Campus)

1. We had our first Student Council meeting using Google Meet on Thursday, November 12th from 4 pm to 5 pm.
2. 20 Students attended.
3. At this time, we have 17 students who are learning In Person, and 10 students with OCV.
4. Student Council meetings will be held every three weeks on different days of the week because some students have after school activities.
5. We are working on coming up with a name for Student Council
6. The OCV students also shared their STARS and WISHES. They also indicated a WISH to support a cause or charity. Some of the STARS were: making new friends from different schools, helping one another, and learning a lot of new things.

Hello, my name is Maggie Lynch and I am a grade 5 student in Ms. Sarte-Dance's class at ACES In Person.

7. We are working on coming up with a Mission Statement
8. We used Jamboards to share our ideas and we will be voting on them
9. The In Person ACES students have surveyed their classes to share things that are going well (STARS) and any goals they have for improvement (WISHES) and entered the information on a Google Form. Some wishes were to support a cause or charity, and to develop virtual clubs. What was reported as STARS were: distancing well at school, safe use of technology with sanitizing devices, and working on fun projects.
10. We will be sharing the STARS back to different classes, and looking at what WISHES might be good thing for Student Council to help with
11. We have all made AVATARS for a Student Council "photo". We can share it with the Council once completed, with everyone's names.
12. We are keeping our information on a Google Classroom so it is easy for us to access.
